DEMO PERMITS:

DISCUSSION: Mayor – Does any visitor want to speak? Marvin – To bring you up to date on something that has happened at the park. One of those picnic tables that we paint red, has been painted black. For those of you that don't know we have reached out to the community and asked for help taking care of the park. Since this has happened some of the school class sponsors have reached out to me and asked if the city would get the paint, then the kids could paint them before Chrisman Days in September. Dan, I know that you wanted to do a clean-up at the end of April and that would be Prom weekend so did you want to move it to the weekend before? Mayor – Yes, probably the 13th then. Marvin – or do you want to move it to the 27th? Mayor – then

maybe we could do the tables the 27th. Marvin – I would organize the people to get that done closer to September. Also, could you look into getting better trash cans for up at the park? Jordan – I have not even looked at my budget for the end of the year. Marvin – Well just the metal style so they don't blow around.

Mayor – Under new business golf carts. Hoult – I think the correspondence from our attorney pretty well lays it out. I think we are in a position to enforce the lights, slow moving vehicle emblem, a drivers license, but no requirement for seat belt. We need to have the attorney redraw the ordinance and make that official. Mayor – they have to have insurance. Hoult – Right but insurance, drivers license has to be checked up here with the girls. Mayor – Tom do you have a copy of that ordinance? Dolan – I have two and some thoughts. There is something else out of that list that they removed and that is windshields. I think if you are going to remove the seatbelts like they did you also need to remove windshields too. Mayor – then they would have to wear glasses. Dolan- It is not referred to as having to have glasses on. Hoult – Well the windshield thing is interesting that you bring that up because you think about it and some of these you can lay the windshield down. So, if we put a requirement on there for windshields it will not be followed very well. So, I'm okay with not requiring a windshield. Dolan – I'm not say take it out because it is in there but if we are basing the change based on the change in legislator then that was another change noticed was windshield. Hoult – We need to make sure that is written up accurately. Tom went on to talk about slow moving vehicles being wrote up in the ordinance as none highway vehicles. Mayor – We still want the inspections though. Dolan – Yes, happy to do that we would want to change the inspection sheets then as well.

Mayor – Tom did you have anything on the police car? Dolan – They have pushed the date until further down the road so we are more financially stable to do that. Also, I don't know if anyone knew but the car would not start when I came in yesterday. I used my halo out of my personal car and that thing worked great. We do have a leak in the current squad as well. So, I would purpose that we get a seconded car so we can keep this other car going. Mayor – We don't have it in the budget for this year, but for next year we will budget for it.

COMMISSIONER JORDAN MOVED AND COMMISSIONER BURGESS SECONDED THAT THE COUNCIL AUTHORIZES THE LAWYER TO UPDATE THE GOLFCART ORDINANCE. VOTING AYE ON THE MATTER WERE ALL MEMBERS PRESENT. VOTING NAY NONE. MOTION CARRIED.

REPORTS FROM COMMISIONERS: Mayor – Water Department? Burgess – I don't have anything right now. Ramey – I have something. Huh... We have an outstanding bill to talk about. She is waiting to know what she should pay. It is a brand-new meter, the tattle tail is not spinning, and we asked her to put blue dye in her toilet. There is another individual living there and there has not been any complains from them. Council agrees that she needs to pay the bill. Ramey -Another thing is to update you on CUSI. We have been working very hard this past week to get thing ready to bill for April out of the new system and balance with the old system. The plan is to drop on the 15th of April. Hoult – Very good! Is the 15th an official day then? Ramey – It is not a hard date it is just our goal to be the 15th. Burgess - If you could shoot me a text to let me know what you find Please. Mayor – anything on the water boy? Burgess- No.

Mayor – Jordan? Jordan – The only thing I have is that it was recently reported to me that the flag in the park, the wind took it down and broke the rope. So, I have to fix that. Burgess – If you talk to the legion, they typically replace the flags.

Mayor – Jerry? Hoult – We are to the point we need to be looking forward to next years finances and really we are in a place where we can't justify the increase the price of products to justify increasing expenses we have

got to figure it all out.

EXECUTIVE SESSION –

REPORTS FROM THE MAYOR: The only thing I had was down in the library we had to replace 3 support posts and the hot water heater is leaking and might have to replace it. So, we are looking at a 2.5-gallon water heater to wash their hands. The dump is a mess still. People are still bringing trees and things in plus the weather has not cooperating with us therefore we have a bunch of work out there that needs done.

ADJOURNMENT:

COMMISSIONER BURGESS MOVED AND COMMISSIONER JORDAN SECONDED FOR ADJOURNMENT AT 6:39 PM.

VOTING AYE ON THE MATTER WERE MEMBERS PRESENT. VOTING NAY NONE. MOTION CARRIED.

LELA RAMEY, CITY CLERK
