WATER LINE TO UNITED PRAIRIE:

WOLFE MOVED AND CRISPIN SECONDED THAT COUNCIL APPROVES THE WATER LINE TO UNITED PRAIRIE. VOTING AYE ON THE MATTER WERE ALL MEMBERS PRESENT. VOTING NAY NONE. MOTION CARRIED.

DISCUSSION:

Ambulance:

Everything has been accepted. Wolfe- Northern Edgar County Ambulance is going to hold a meeting one more time to settle the assets? Jeremy Neal- Yes. Mayor Owen- You bought it and took it over? Jeremy Neal- I did. Wolfe- Is there a way that when people call for an ambulance, they can say they want an ambulance only instead of having the fire

JULY 19, 2021

department show up as well? Jeremy Neal- Yes, you'll just have to let the dispatchers know. Mayor Owen- So when is your first day of operation? Jeremy Neal-Last Wednesday.

Police:

Nothing

United Prairie:

Wolfe- They are building a fertilizer plant out there before you get to the viaduct on the south side. When we did the subdivision up north, we put in the water line, and when they sold the properties, they were supposed to pay. This time, we will engineer it, they will hire their own contractors and put in their own sewers and waters. After they get their water in, we'll accept it and turn their water on. He is going to put it in by our engineering. We are going to pay the engineer but they are going to reimburse the city for the engineering fee. Mayor Owen- All of it? Wolfe- All of it. The only thing you see in that contract is the IEPA contract they will have to pay for themselves. Mayor Owen- What size main? Wolfe- Were going to tie on to that 4-inch main and go across and down. You're predicting to use how many gallons? Brian Shehe- In Ridgefarm we were using a million gallons a year. Wolfe- So not too much, if we make \$1.50 a gallon then well make a \$1000 or \$1500 a year.

Move Money:

Wolfe-Were not going to make a decision on tearing down this building, are we? Mayor Owen- No. Wolfe- I hate doing this, can we table it. We paid in 19% of the Money for the Ambulance. Jeremy Neal- Should be around \$21,000. Wolfe- I'm saying, to me its health and safety money. Take that money put that in there we won't have to move money from any other account. Crispin- Still going to help. Wolfe- Oh it will be enough to tear down that house.

Phase 1 funds:

Mayor Owen-We have some left-over funds for our WWTP phase 1, we thought it would be a good idea to use that money to pay off on the loan. How much is it that we have left over? Kaylen Hoskins- \$75,000. Mayor Owen- We don't have anything pressing that I know of that we need that money out there for. Wolfe- Works for me that's what I wanted to do anyways.

Tar and Chip:

Crispin- We had zero bids put in. The engineer was talking to Beniach and they are booked, so they want to see if well ok it for them to start working in September. The way the engineer was talking we might not have to bid it out if we accept it. Our engineer was talking to them up until the meeting and they never showed up. Mayor Owen- So if we put it off until September our price is locked in? Crispin- I don't know that. Wolfe- If we sign a contract. Crispin- Yes if we sign a contract, but I don't know that details in what they want to do for sure in September. They just said they would be able to do that, if we allowed it. Mayor Owen- One year, maybe more than one year we used Edgar County. Wolfe- He used

JULY 19, 2021

to do ours, but he won't bid. Can I ask what kind of rock we are going to put down? Crispin- Pea Gravel. Wolfe- Were going to use the split pea gravel still? Crispin- Yes to try and cut down the dust. I say if they agree to is, we'll just have them come in September. He said our timeline is still good. If you guys are good with it, I'll talk with him tomorrow.

Commission Crispin:

Edgar County Foundations said their next meeting they should have an answer. I thought our next meeting in August was later so it will probably be our second meeting before we hear about the grant. He said it looks good, but he doesn't want to commit to anything. We've still got people wanting to put in bids for electrical that I haven't talked to or quotes. I want to look at my budget before taking on more huge projects out of the budget.

Commission Wolfe:

I want to figure out what we are going to do with the old wells. Usually, they make you do it within 6 months. But we might be able to reach out to Jimmy or United Prairie. A lot of the fertilizer companies want water that doesn't have the chemicals in it. So, could we hook it up for raw water. As long as we don't back wash our stuff to the sewer, we could do that and leave the water boy there. But without having the water running through that building it might cost us a lot to heat it. We'll need to do an educated decision. Ray went out and made a list of about 12 properties that are needing a lot on work. He took it upon himself to do that. I also thought someone from the Veteran Memorial would have been here, we haven't taken that over yet. They said they were going to finish putting the names on it that needed to go on it. People had asked me why they don't give to the Legion and no the city. Their thinking is that the Legion might not always be there but the city will be. The railroad finally said they'll waive the insurance, so after sign the check, ill get the permit, then hopefully we'll have the water within the month. Crispin- Then are we going to have to go through and completely wash our lines out? Wolfe- Yes, we will. We will give a couple months on Paris water then we will have to drop the level in the tower. We'll have to get someone to come in and wash the tower. There is Iron hanging on inside, we've got to do a 5-year inspection on the tower anyways. It's been a couple years, so we will just bump it up and get an inspection and everything done at once.

Commissioner Haddix:

Nothing

Commissioner Chaney:

Nothing

ADJOURNMENT:

WOLFE MOVED AND CRISPIN SECONDED FOR ADJOURNMENT AT 7:22 P.M. VOTING AYE ON THE MATTER WERE ALL MEMBERS PRESENT. VOTING NAY NONE. MOTION CARRIED.
